PREFACE

THE number of books sold at auction in the United States during the season of 1909-1910 seems to be almost identical with that of the preceding year, and the fact that the present volume includes a greater number of records must be explained by the comparatively higher prices brought by the material offered. Last year we recorded 16,750 lots, selected from 151 catalogues including about 126,000 lots. Here we record 16,994 lots, selected from 148 catalogues describing some 124,000 lots.

Several important collections were dispersed during the season, among the more notable being the libraries of Amor L. Hollingsworth, Clarence H. Clark, Louis I. Haber, Frank Maier, Edward Everett Hale, Wilhelmus Mynderse, and Charles M. Wallace. The remaining portions of the libraries of Jacob Chester Chamberlain and Samuel W. Pennypacker and a selection from the very important library of Edwin Babcock Holden included, as did other sales, many important items. A chronological list of the sales will be found on the pages following this Preface.

The following outline of the scheme of the record is reprinted from the earlier volumes.

The name of the author (or, in the case of anonymous books, the first words of the title) are set in black faced capitals.

Club or Press publications are (generally) under the Club or Press, and a few other books, such as anonymous histories and biographies, are entered under their subject. The titles of the various works of an author, printed in black faced lower case type, are arranged in alphabetical order. This is followed by the place where printed, the printer (in a few cases), the date, and the size of the volume. This first portion of the description is general and applies to all copies of the work. Following this general description is the specific description of the copy or copies of the book as sold, each lot beginning a new line. This specific description is made up as follows:

First. A description of the binding, the abbreviations being those which are universally used and understood.

43,962

Second. A statement as to the condition of the particular copy recorded, if on large paper, if with extra plates inserted, if from a famous library, etc.

Third. The name of the sale where a name was given on the catalogue. This does not mean in every case that the name as given is that of the owner of the book, as additions from other unannounced sources are often included with books of a known owner.

Fourth. Capital letter, indicating the name of the auctioneer under whose management the sale took place.

A. is the Anderson Auction Company.
H. is Stan. V. Henkels.
L. is Charles F. Libbie & Company.
M. is The Merwin-Clayton Sales Company.
G. is The American Art Galleries.

Fifth. The date of sale. In the case of sales of more than a single day's duration this date is that of the first day of the sale.

Sixth. The lot number in the original sale catalogue.

Seventh. The price realized. This is the price for the lot, not per volume.

December, 1910. L. S. L.
